

Noah Cherblanc

Software Development Engineer Java/C++

EDUCATION

2022-2025 - Polytech Grenoble - Engineering IT school

IT & Engineer skills, development project management

2020-2022 - Polytech Clermont - PEIP A (general)

Polytech engineering school preparation (math, physics, IT)

2017-2020 - Lycée Lafayette Brioude

Scientific baccalaureate (Mathematics)

STUDY PROJECTS

02/25

04/25

On-board software for cubesats (LoRa)

- **Build strong network communication** for satellite
- **Organize data** in a dashboard (Grafana)
- **Working** with significant constraints (space)

09/24

01/25

E-commerce website project (Angular)

- **Manage** a 6 people agile process (SCRUM Master)
- Work with a **real client**, in an **agile process**
- Work on the **front-end** part of the website

05/23

06/23

Game Engine + Game: RPG (Java + Swing)

- **Manage** 7 people work (Project Manager)
- **Using** Automate to manage the game AI
- **Organizing** large-scale code (MVC)

ABOUT

Determined, serious and autonomous.

I am a motivated recent graduate looking for a **Java** or **C++** development position.

SOFT SKILL

- Teamwork/Team management
- Curious & motivated
- Autonomous
- Code design

MAIN AREAS OF KNOWLEDGE

- Java, Spring Boot, C++, Qt
- Data Structure and Algorithms
- Database: SQL, JPA/Hibernate
- Git, Docker, Maven, IntelliJ
- Agile, Scrum, React, Angular
- Jenkins, Kubernetes,
- Unity, Godot

LANGUES

French - native

English - professional B2

EXTRA

- Good academic performance (2nd in class last year)
- Member of the student game association - vice-president
- Non-school IT events :
 - Nuit de l'info (2023 + 2024)
 - Some corporate dev battle
 - AdventofCode, TryHackMe
